About us

World's First acceleration program dedicated to Decentralised Finance and NFT

It's the time of DeFi!

The noise of an infinite number of "Legends" of the DeFi space bombard our ears every day but the real business behind the scenes began months ago. TradeDog Research 'Sniffed' this trend and started working on 'An Accelerator of the Future program'. With decades of operational experience, we understand the issues for upcoming DeFi projects. TDeFi is a fully structured initiative that offers our full suite of resources, a lot of sweat, maybe some blood but reduces the need for tears to projects.

TradeDog DeFi Acceleration Program is yet another initiative in the same direction to give our investors/followers access to the best of 'propositions' available in the market at an early stage. This will create the best performance of their investment, as well the Project exposure to capital and resources. TDeFi has structured an intensive mentor-driven program that brings all the building blocks for a DeFi startup under one roof through the established portfolio companies of the Partners/In house group Infrastructure of IntelligeX Wealthtech serving the Fintech and Crypto ecosystem for over 4 years.

TDeFi

International Demo Day

The most recent Crypto Bull Run has been nothing short of phenomenal for the Blockchain Community. With a Total Value of \$12.5 Billion locked up during this latest investment cycle, the DeFi Ecosystem is surging ahead at an unprecedented pace.

TDeFi accelerator has set a new industry standard with our mentor and support program for DeFi and NFT ventures that are looking for access to our ecosystem of World-Class Mentors, Industry Connections, Technology services, Marketing & Community, Exchanges, liquidity and growth hacking partnerships.

The Pilot cohort of the acceleration program incubated high performing projects such as xBTC, Oro-Pocket, Dfyn Network, Cashfi and POP Network. With the announcement of the second cohort starting January 2021, TDeFi is hosting an International "Meet the Mentors and Pitch" Event, which will be held both in-person and online at the Presidential Suite, Ritz Carlton, Dubai.

This will be broadcasted live on our Network Channels for Retail and Wholesales Investors, Traders, Enthusiasts, evangelists and more. This is an international promoted event to attract the most attention to your project.

You'll have the option of meeting our mentors in-person in Dubai or pitch and demo virtually (between 2nd-4th December 2020) with the unique opportunity of being selected in the 2nd Cohort of the TDeFi Acceleration Program. If your project is selected, you'll get a chance to demonstrate your product on the Demo day (5th of December, 2020) to a network of 600+ Institutional Investors, 48+ family offices, 1Mn+ social eyeballs, 600k+ traders. Besides this, TDeFi will also provide mentorship for Global Compliances & Regulations, Banking and OTC access, Technology Partnerships, PR & Marketing and Token Growth Consulting. You can submit your application by completing our application form.

If you are an investor looking for early-stage deals, then you are cordially invited to attend the event and interact with the project founders.

Event Partner

Agora Group, headquartered in the UAE & with regional offices in the Middle East, creates opportunities by connecting people, partners and ideas & helping projects raise funds.

Our mission is to facilitate the access of international companies to Arab funds through multiple platforms that allow direct connection to investors from these regions.

Agora works heavily in the disruptive technologies environment, especially in Blockchain and DeFi. We have helped numerous Blockchain and DeFi projects raise funds by connecting them to pre-qualified investors (Family Offices, High Networth Individuals, VCs, Crypto Funds and Private Equity) from the Arab World.

We are excited to work hand in hand with TDeFi to organize the Dubai Summit. This is a premium opportunity for DeFi projects to present and pitch in front of amazing and pre-qualified investors.

Agora will tap into its vast network of investors to support this event and to give the projects the best chance of raising funds.

We are looking forward to this competition and to hear from the brightest DeFi entrepreneurs.

Agora is also proud to announce the launch of the inaugural Global DeFi Congress on February 10th 2021- the first event in the MENA region dedicated to raising funds for DeFi projects. We are hosting more than 60 pre-qualified investors and we are limiting the number of DeFi projects to 10. This is an unparalleled opportunity to have a set of pre-arranged, pre-scheduled, one on one meetings with investors of your choice. For more information, please email us at
